Module Nos. 106/248/280

[Reading the display]

[Regular timekeeping mode]

[Stopwatch mode]

[Countdown alarm mode]

[Daily alarm mode]

[Changeover between 12/24 hour formats] In regular timekeeping mode, with every push of the button, the display is switched between 12/24 hour formats.

[Stopwatch operation]
A signal confirms start/stop operation. A signal sounds at 10-minute intervals.
(Working range) The stopwatch display is limited to 59 minutes 59.99 seconds. Thereafter it can be reset and started again.

(a) Net time measurement

(Start) Press to start.

(Stop) Press to stop.

(Re-start) Press to re-start.

(Stop) Press to stop.

(Reset) Press to reset.

(b) Lap time measurement

(Start) Press to start.

(Lap) Press to take lap time.

(Lap release) Press to release lap time.

(Stop) Press to stop.

(Lap release) Record the time of the first runner and press.

(Reset) Record the time of the second runner and press.

(c) 1st - 2nd place times

(Start) Press to start.

(Lap) Press when the first runner finishes.

(Stop) Press when the second runner finishes.

(Lap release) Record the time of the first runner and press.

(Reset) Record the time of the second runner and press.

[Countdown alarm operation]
The countdown can be set from one minute to 11 hours 59 minutes, and times to an accuracy of one second. Start/stop operation is possible by pressing the button and is confirmed by a signal. A signal sounds at 10-minute intervals. When the display reaches zero, the buzzer will sound for 30 seconds unless the button is pressed.

(Repeat function) When the display is stopped, the pre-entered time is retrieved by pressing the button.

[Setting daily alarm time]
Every time the button is pressed in the alarm time display, the alarm-ON mark appears or disappears. When the alarm-ON mark is lit, the buzzer sounds for 30 seconds at the preset time every day until cleared. To stop the buzzer while sounding, press the button.

[Setting the time signal]
Every time the button is pressed in the alarm time display, the time-signal ON mark appears or disappears. When the time-signal ON mark is lit, the watch sounds every half hour on the hour with a "Beep" signal, and sounds every hour on the hour with a "Beep" signal, regardless of the preset alarm time.

[Sound demonstration] While both and buttons are pressed simultaneously, the buzzer sounds.
