[Daily alarm mode]

[HOUR setting] Press □ to advance one hour.

[10-minute setting] Press □ to advance 10 minutes.

[1-minute setting] Press □ to advance one minute.

Press □ to complete.

[ON OFF setting of daily alarm and time signal]

[The alarm ON-mark and time signal mark appear.]

Press □ to advance one hour.

Press □ to advance 10 minutes.

Press □ to advance one minute.

Press □ to complete.

[Stopwatch operation]

A signal confirms start/stop operation.

Working range: The stopwatch display is limited to 59 minutes 59.9 seconds. For longer times reset and start again.

(a) Net time measurement

Stop

(b) Lap time measurement

Lap release

Lap

(c) 1st-2nd place times

Stop

Lap release

Lap

Press □ to complete.

[How to play the game]

1) Press □ to change the display to the Game mode, and the game will start automatically after 4 seconds.

2) [Building blocks] To catch blocks falling off UFO and build them into a pyramid, press □ or □. Pressing □ moves four men to the right, and pressing □ moves them to the left.

3) [Removing blocks] Completion of a pyramid without losing three lines will switch the game to "removing blocks."

4) The moment a block disappears, press □ or □ to stop it from reappearing.

5) If any block falls off, the game will switch to the next round.

6) Success in repeating steps 2 to 5 will permit you to advance to the next game. Each game consists of 10 rounds (Nos. 0 to 9).

7) Press □ to replay.

[Scoring system]

(Building blocks)

Points: 4

3

2

1

(Removing blocks)

Also, you get 100 bonus points when a complete pyramid is built up, and you get double score when you remove blocks from the pyramid as shown in the parentheses below:

4-tier pyramid

Points: 1 (2)

5 (10)

10 (20)

20 (40)

3-tier pyramid

Points: 1 (2)

5 (10)

10 (20)

2-tier pyramid

Points: 1 (2)

5 (10)

1-tier pyramid

Points: 1 (2)

Scoring display range: Your score can go up to maximum 9999, and thereafter it is reset.

[Setting time and calendar]

[Regular timekeeping]

Press □ to maintain seconds.

Press □ to advance one hour.

Press □ to advance one minute.

Press □ to advance one month.

Press □ to advance one date.

Press □ to move to next day.

[Second adjusting]

Press □ to advance one hour.

Press □ to advance one minute.

Press □ to advance one month.

Press □ to advance one date.

Press □ to move to next day.

* Precise time can be maintained by correcting the seconds once a month on a time signal from a radio, TV, telephone, etc.

[Quick digit advance] When the □ button is pressed for more than 2 seconds, the digit advances quickly. When released, the digit advance will stop.

[Independent correction] Correction of any digit, if not required, can be skipped by pressing the □ button repeatedly.

[Reversion to normal timekeeping mode] The watch reverts to the normal timekeeping mode if the □ button is pressed, regardless of the digit setting mode.

[Auto-retrieve function] Any setting display will automatically return to the regular timekeeping mode in 1 or 2 minutes.
