**Module No. 261**

**READING THE DISPLAY**

- **Regular timekeeping**
  - Press C.
  - [Weekly timekeeping]
  - [Menu mode 1]
  - Press C.
  - [Menu mode 2]
  - Press C.
  - [Display contrast]
  - Press C.

- **Regular timekeeping**
  - Hold down C for a few seconds to revert to regular timekeeping, regardless of mode.

---

**SETTING TIME AND CALENDAR**

1. **Hold down C for a few seconds while in regular timekeeping mode to set.**
2. Press 6 (the [H] key) on a time signal to set seconds to zero.
3. Press the appropriate numeral keys to enter time.
4. AM or PM can be entered by pressing [A] in the 12-hour format.
5. The year can be set up to 2097 by entering the last two digits of the year.
6. Press [C] to shift the cursor in the following sequence:
   - **SECOND**
   - **HOUR**
   - **DATE**
   - **MONTH**
   - **MINUTE**
   - **YEAR**
7. Press C or C to complete setting.

---

**SETTING DAILY ALARM**

- Setting the daily alarm causes the beeper to sound daily for 20 seconds at the preset time. Press any button to stop the beeper while it is sounding. A beep sounds every hour on the hour if the time signal is set.
- (Auto-retrieve function)
  - Watch returns to regular timekeeping in 5 or 6 minutes if left in another mode.

---

**DATA BANK OPERATION**

One of three types of MEMO can be selected by pressing 1 (TEL), 2 (SCH), or 3 (MEMO) while in the MENU mode. Memory area is shared among the three types of MEMO.

1. **TEL (TELEMEMO)**
   - A maximum of 100 pages consisting of 8 characters and 12 numerals per page can be stored. Pages are automatically stored in alphabetical order. A password function keeps personal data private. Sequential and initial direct search can be used to locate data.
2. **SCH (SCHEDULE-MEMO)**
   - A maximum of 65 sets consisting of date, start time, end time, and a 16-character message per set can be stored. Memos are automatically erased when the date for which they are set is passed.
3. **MEMO (MEMO)**
   - A maximum of 104 pages consisting of 24 characters per page can be stored. The password function, sequential and direct search can be used.

Once 1 TEL, 2 SCHED, or 3 MEMO is selected, press 1 (SEARCH), 2 (EDIT) or 3 (INPUT). Next the password should be entered if one has already been set.

1. **SEARCH**
   - **SEQUENTIAL SEARCH**: Press [C] or [C] to search data items one by one.
   - **INITIAL SEARCH**: Use the character keys to enter the initial letter (or month when the [H] key is pressed) of the data item to be located and then press [C] or [C] to search data items one by one.
2. **EDIT**
   - Recall data item to be edited using SEQUENTIAL or INITIAL SEARCH.
   - Press [C] or [C] to move the cursor to the appropriate position.
   - Simultaneously hold down [C] and [C] for a few seconds to clear the entire page.
   - Enter the desired characters.
   - Press [C] to continue. The watch reverts to regular timekeeping if [C] is held down.
3. **INPUT ENTERING NEW DATA**
   - Press [C] or [C] to move the cursor to the appropriate position. Enter characters after continuing that the cursor appears as "- ."

**Example 1**
- **Enter TELEMEMO**
  - Name: 1 J
  - Telephone number: 03 347-4956
  - (Space)

**Example 2**
- **Enter SCHEDULE-MEMO**
  - [Date]: June 30
  - [Start time]: 4:00 p.m.
  - [End time]: 7:00 p.m.
  - (Appointments): Dance party

---

**SCHEDULE NOTICE**

Schedules can be viewed in the regular timekeeping mode for the current date, tomorrow, the current week and the next week. A beeper and a message is shown if the watch is in the regular timekeeping mode when preset time is reached.

---

**KATAKANA (JAPANESE SYLLABLES)**

Enter KATAKANA symbols as follows after confirming that the cursor is displayed as "- ."

**Example**

<table>
<thead>
<tr>
<th>Katakana</th>
<th>Romanization</th>
<th>English</th>
</tr>
</thead>
<tbody>
<tr>
<td>あ</td>
<td>a</td>
<td>A</td>
</tr>
</tbody>
</table>

---

**Password**

The password function can be used in the TELEMEMO and/or SCHEDULE-MEMO modes to keep stored data private.

- **[Password registered]**
  - Press [6] then [0-9] to enter the password.
  - Enter 1234.
  - Press [C] to complete.
  - The watch reverts to regular timekeeping if [C] is held down.

- **[Password cancel]**
  - Select 6 while in the MENU mode.
  - Enter four numbers as the password.
  - Press [C] to clear the cursor.
  - Press 1 and/or 2 to set password to the TELEMEMO and/or SCHEDULE-MEMO modes.
  - Press [C] to complete.
  - The watch reverts to regular timekeeping if [C] is held down.

- **[Password change]**
  - A new password can be registered once a previously registered password is canceled.

---

**Password clear**

A password can be cleared if forgotten, but clearing the password also clears all data stored under the password.

1. Select 6 while in the MENU mode.
2. Simultaneously hold down [C] and [C] for a few seconds.
3. Press [C] to complete. The watch reverts to regular timekeeping if [C] is held down.

---

**Scheduling**

Scheduling can be viewed in the regular timekeeping mode for the current date, tomorrow, the current week and the next week. A beeper and a message is shown if the watch is in the regular timekeeping mode when preset time is reached.
MEMORY CAPACITY CHECK
The number of pages used are shown on the display when [MEMO] is pressed while in the memory capacity mode.

- **TEL MEMO** pages used
- **SCHEDULE MEMO** pages used
- **MEMO** pages used

The number of remaining pages available is shown by pressing 2 [MEMO].

- **TEL MEMO** pages unused
- **SCHEDULE MEMO** pages unused
- **MEMO** pages unused

DISPLAY CONTRAST
Press [DISPLAY] or [on] while in the contrast mode to select one of 8 levels of display contrast.

CALCULATOR OPERATION
The calculator mode is entered by selecting 4 while in the MENU mode.

**Function Command Sign**
- Enter numbers. Use [ENG M] for decimals.
- Switches ON/OFF.
- Keep pressed to revert to regular timekeeping.
- Obtains answer and also automatically accumulates it into the memory.

**Indicates constant.**
- 8-digits maximum entry
- 17-digits for negative values
- can be made.
- Perform the four basic arithmetic calculations. An incorrect function command is corrected by pressing the correct button.
- Recalls memory contents.
- Clears last entry. Press twice to clear memory contents. Also releases overflow (indicated by "F") or error check.

DATA PROTECTION
A message appears two weeks before power fade to signal batteries replacement is required.

**BATTERY** Power fade message

Batteries should be replaced with new ones within two weeks of the first appearance of the power fade message. Replace batteries one by one. Removing both batteries at the same time will clear memories contents.

All input data will be deleted in the following cases:
- Batteries replacement, dead battery, breakdown and repair.
- CASIO will not be held responsible for failure in data protection and any resultant damage.

Be sure to press the [ON] button when starting calculations.
