* This watch is not water-resistant, so be careful not to get it wet.
* Caution—50 metre water resistant models—do not operate push buttons below the water surface.
• A waterproof rubber seal is used to guard against water and dust. As rubber deteriorates with time, the seal should be replaced periodically (every 2—3 years).
• Should water or condensation appear in the watch, immediately have the watch checked. Water can corrode electronic parts inside the case.
• Avoid exposing the watch to temperature extremes.
